

Our mission to help

AISHA'S GROUP

By: Layla R, Ja'Nyla D, and
Zenon G.

This is Aisha's Group. This group is composed of 2 very hardworking women who need your help. Aisha is 20 years old with 2 kids struggling to stay in school. She needs the money to buy groceries to feed herself and her kids, keep her kids in school, and to buy groceries to manage a food stall.

We would like to use Kiva to make a \$100 donation to Aisha's Group. Aisha has a 4 1/2 star rating to get your money back.

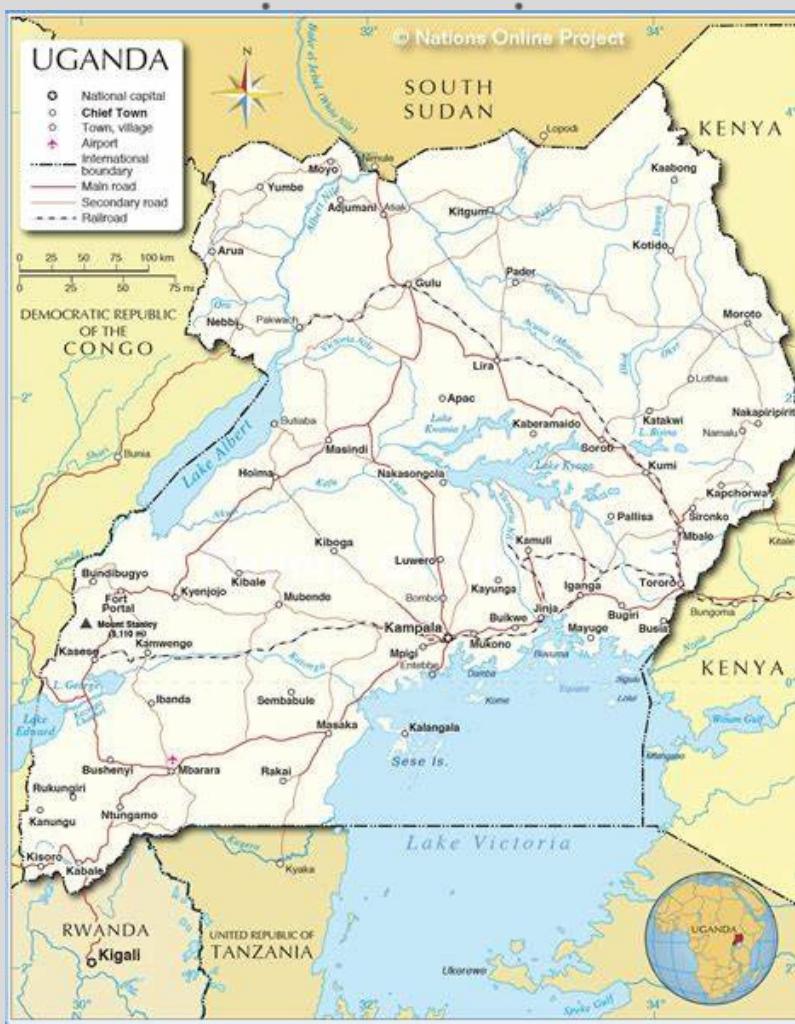

A photograph showing a group of approximately 20 young women and children of African descent, all smiling warmly at the camera. They are dressed in casual clothing, with many wearing orange tops. The background is slightly blurred, creating a sense of depth and community.

Aisha is a member of BRAC's Empowerment and Livelihood for Adolescents (ELA) program. They empower women in situations of poverty, illiteracy, disease and social injustice. They help Aisha's Group sign up to for Kiva and get a lend.

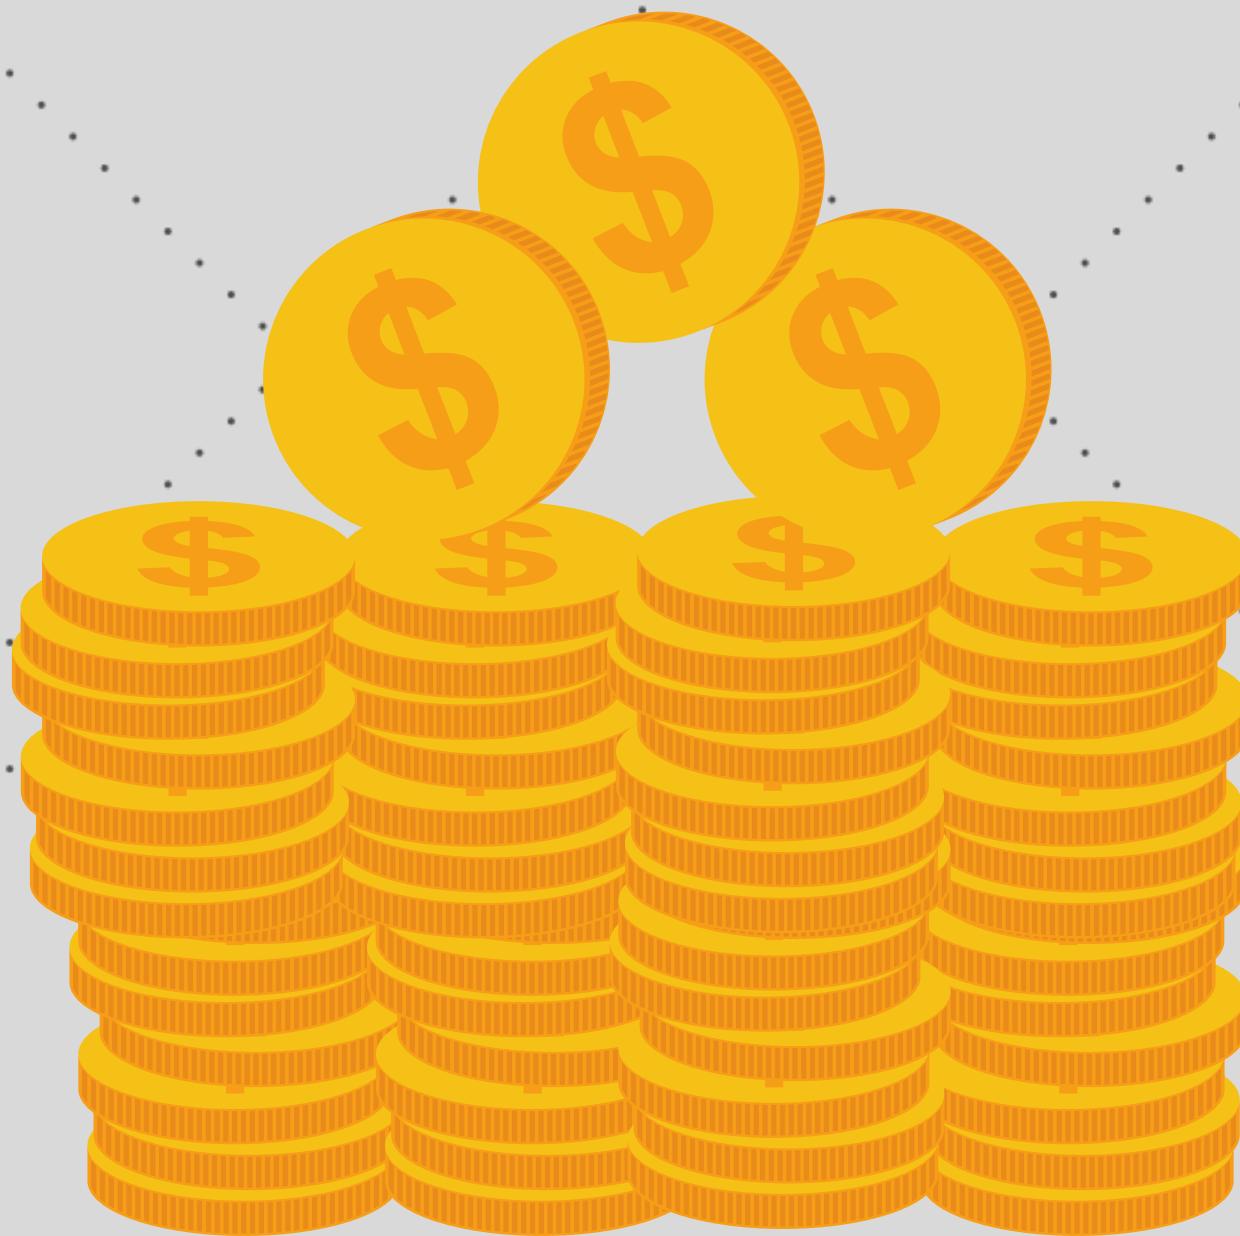

Aisha's Group lives in Uganda. She has two kids where she is trying to manage a food stall to provide basic needs for her family. She sells green bananas and snacks.

THIS IS UGANDA

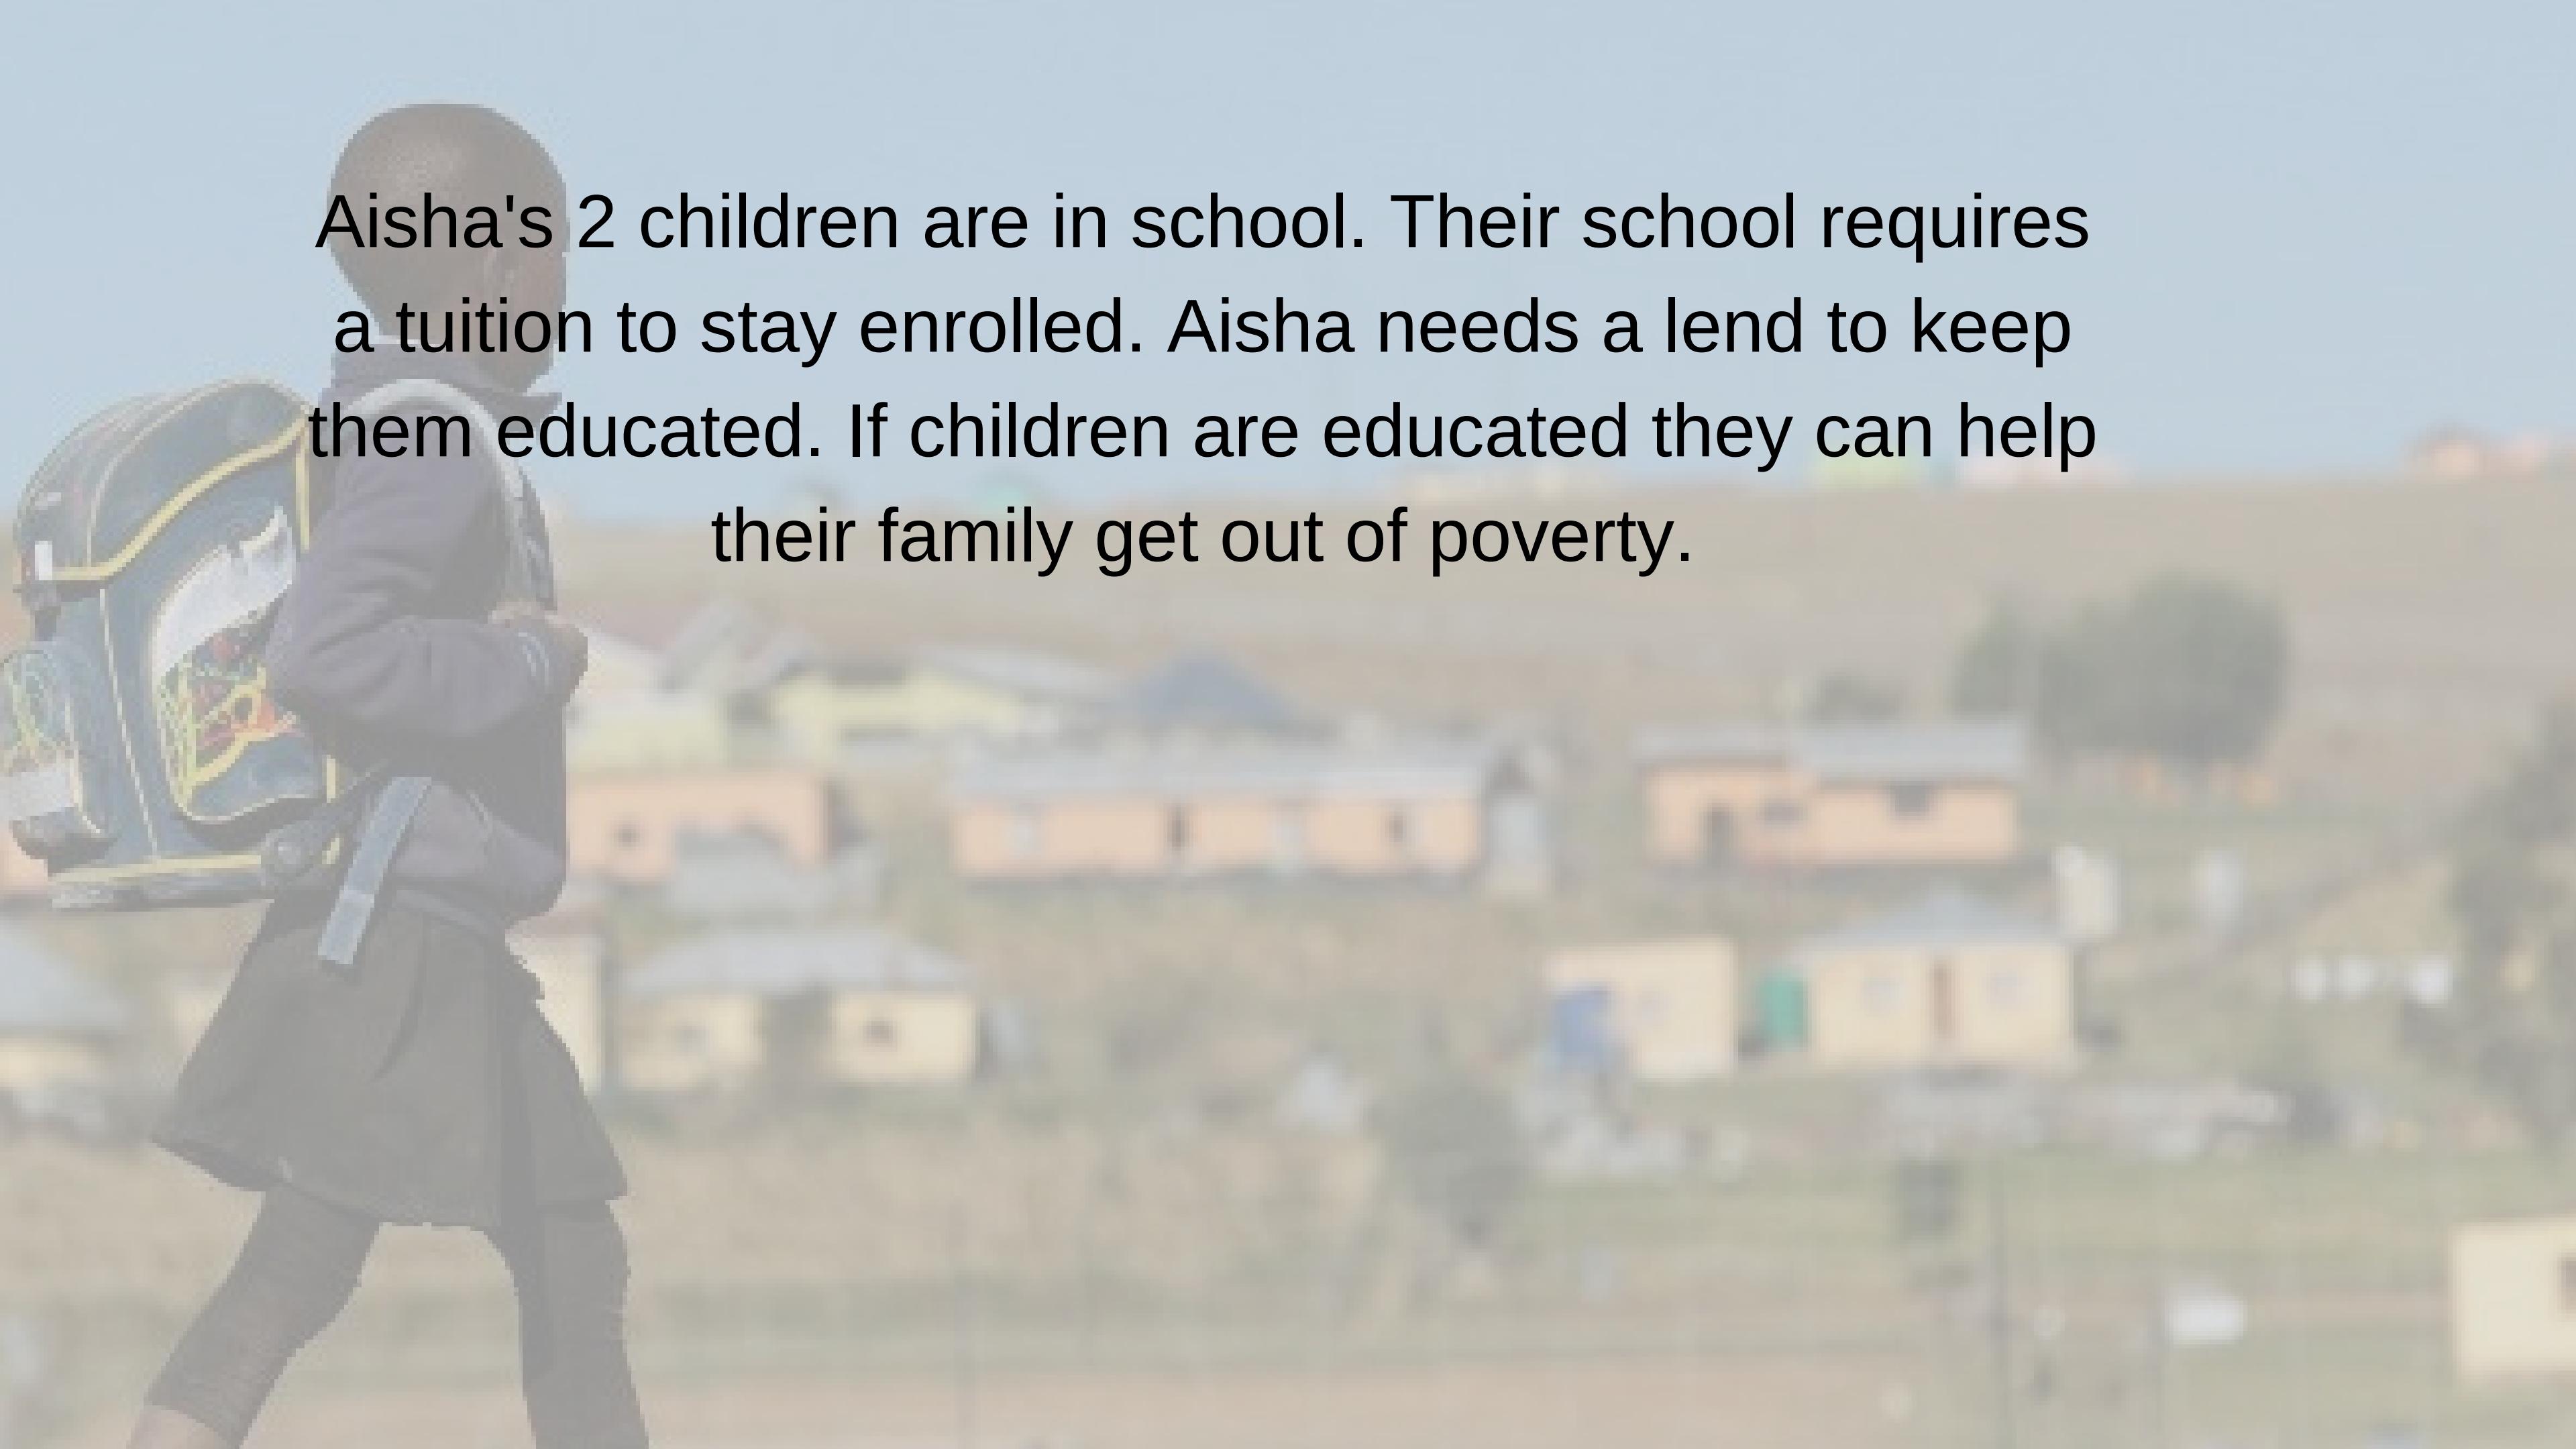

Uganda is a place that is very poor and the average family makes \$693.50 a year. That is \$1.90 per day. The average American family makes is \$59,039.

**American
Income**

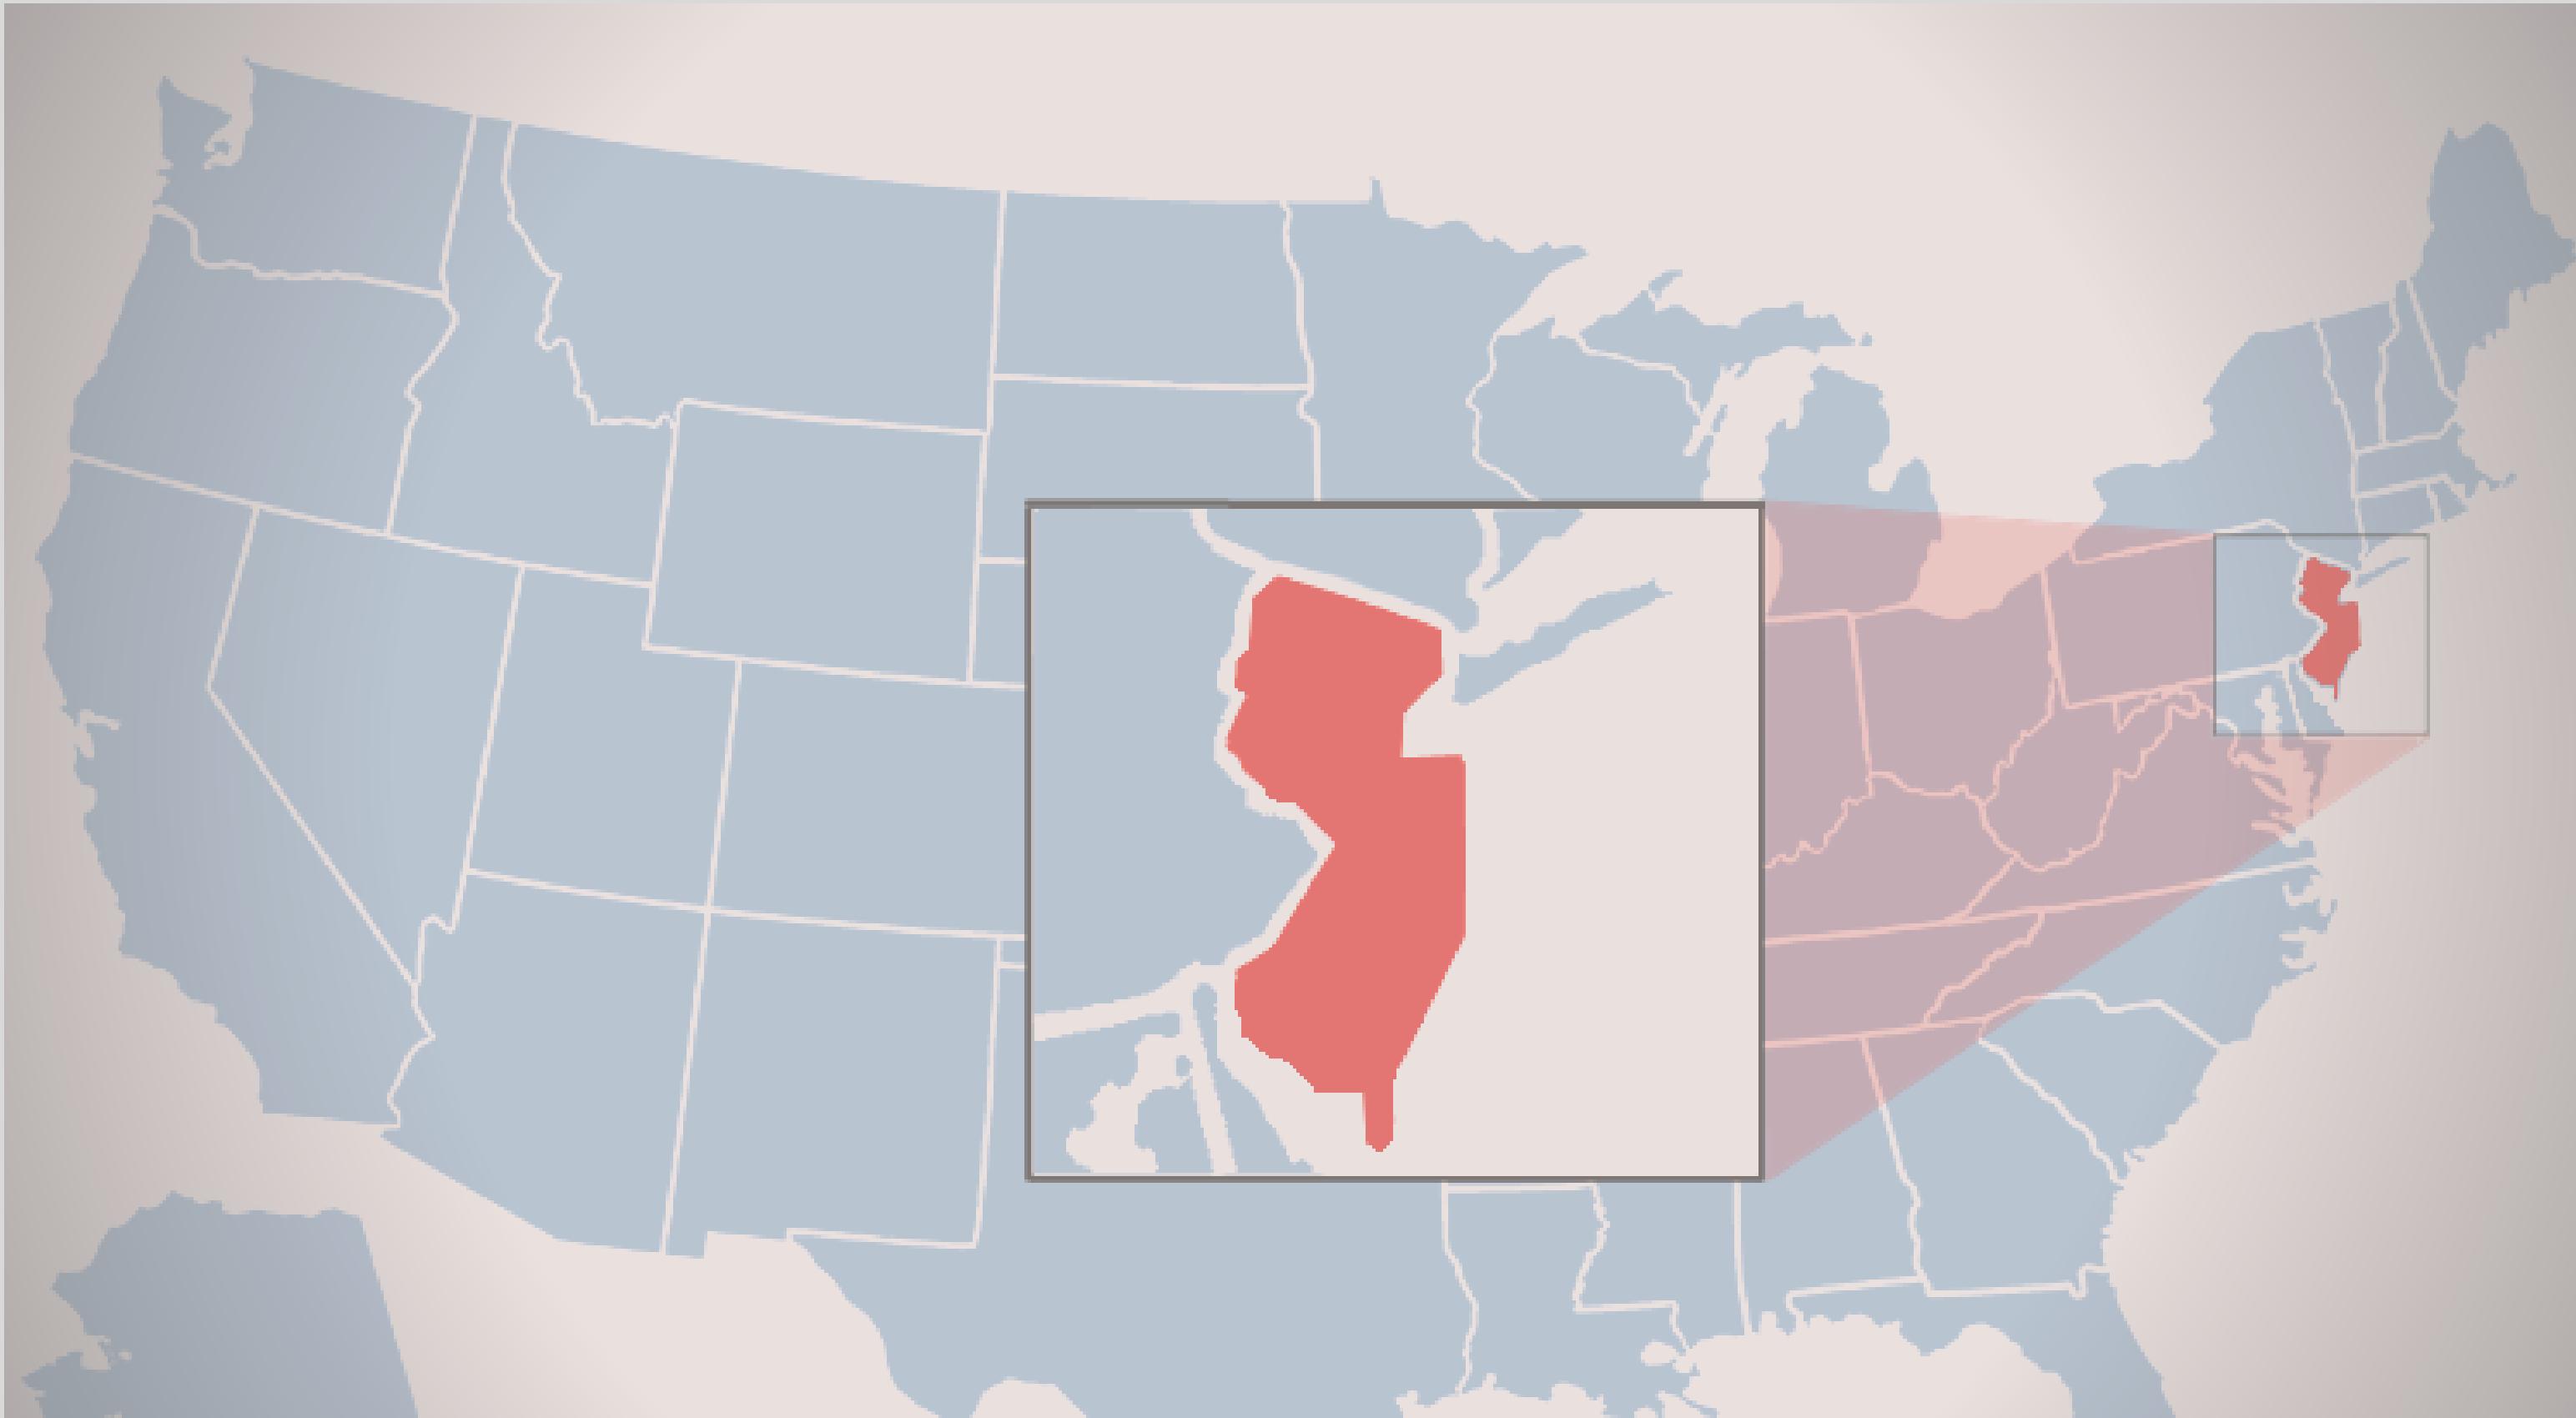

**Ugandan
Income**

A woman in a grey dress is carrying a child on her back. She is walking through a dry, open landscape with some sparse vegetation and buildings in the background.

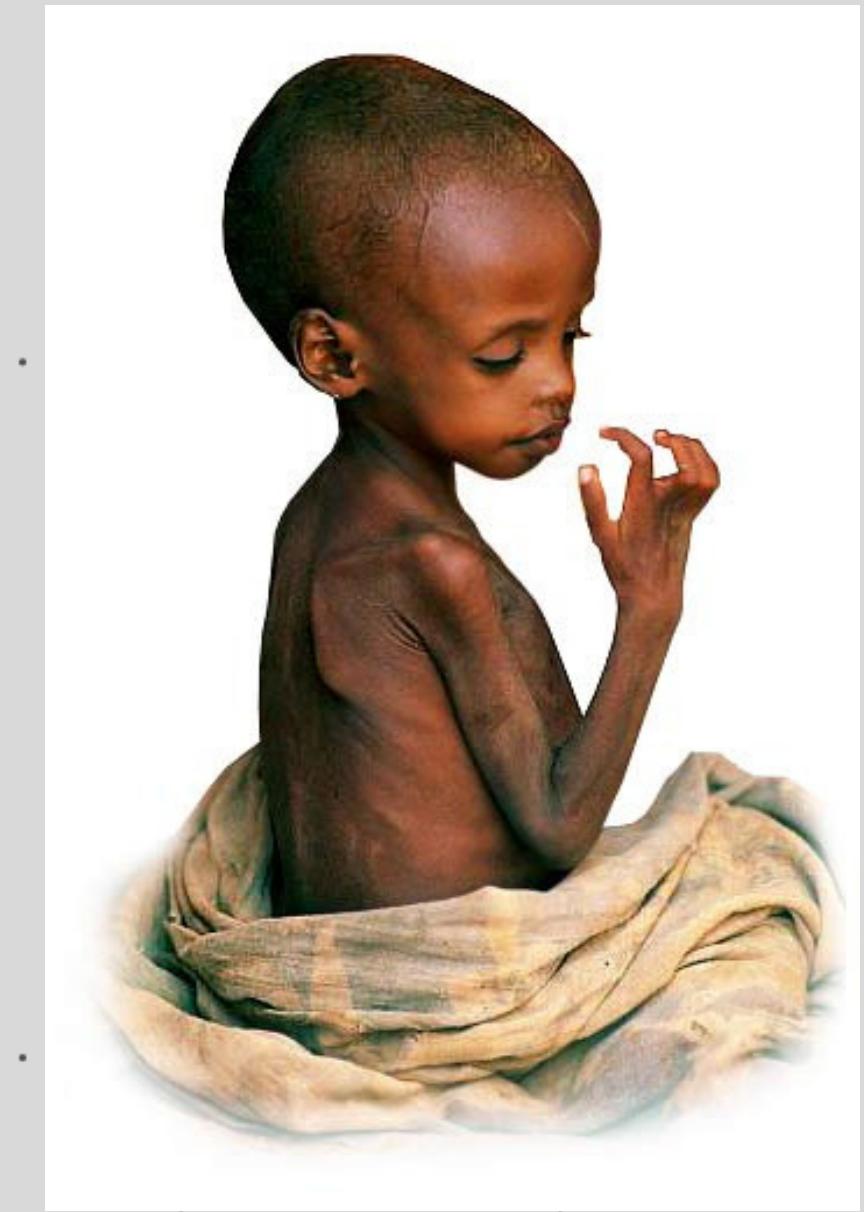

Aisha's 2 children are in school. Their school requires a tuition to stay enrolled. Aisha needs a lend to keep them educated. If children are educated they can help their family get out of poverty.

The literacy rate in Uganda is 78.4% ,the population of Uganda is 41.49 million, so 8,961,840 people in Uganda are illiterate. That is almost the population of New Jersey.

When Aisha's children go and come back from school they have nothing to eat for a snack. They have to wait to eat until dinner.

When children don't eat they are unable to focus in school and develop learning disabilities. They won't be able to get out of poverty and their families will grow up in poverty. Especially without your fruits and veggies your kids could be malnourished(when some foods do not have enough nutrients). In which they really need.

WHAT IS BEING MALNOURISHED?

Being malnourished means is the result of ongoing hunger. Usually unfortunate people lives in a place where there is not enough food. This happens when the food you eat do not have enough nutrients in the food you eat.

Imagine if you were malnourished. You would come home from school and not have anything to eat. The only meal you would have is at school. You would have nothing on the weekends.

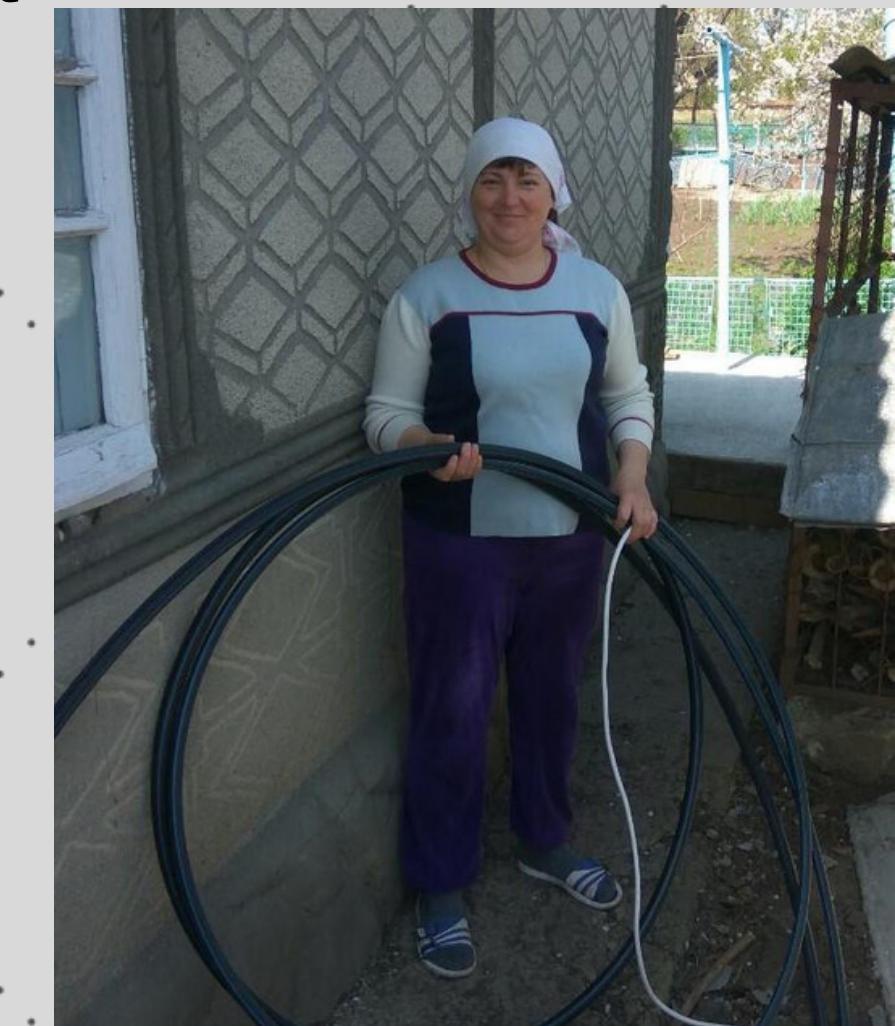

Aisha needs you help. she is only asking for \$100. Her children are depending on you to get a good education. They will be able to rise from poverty with a good education.

You would be the reason they get out of poverty with your \$100 donation. When your donation is repaid, the money can go to other kiva participants.
